Mr. Appell was in the country from Men's Shoes ! April to September, travelling almost continuously, and always in the way mentioned. He exhibited a very comprehensive map of the country, and intererting photographs. He reports the province of Natal as being the only really warm place he was in, and that tropical fruits in abundance are raised there. Nearly all the wheat consumed is imported from the United States and Australia. To illustrate the nature of the negroes of that country he said a man's greatest ambition is to earn enough to enable him to buy six oxen, which he exchanges for a wife, who from that time does all the work.
